**DATE:** October 17, 2023

---

We have reviewed the construction plans submitted to the Planning Department on September 29, 2023. All technical requirements of DPU have been satisfied. We recommend that Final Construction Plans be submitted to the Planning Department for signature. After the Planning office signs the 13 sets of plans, please deliver the 13 sets of plans to Public Utilities for plan signature.

Water and Sewer Agreements that must be executed by the Owner and the County prior to authorization to proceed with construction of County water and sewer improvements are **NOT** required for this project.

The required Pre-construction Meeting may be scheduled jointly with Public Works Pre-construction Meeting, if desired, after the Final Construction Plans are approved. Authorization to Proceed with utility construction will be granted after the plans are signed and the Utility Pre-Construction Meeting is held.
